The Air Jordan 11 will have similarities to the Air Jordan 11 Space Jam but will be featured with Red accents instead of Blue, as well as a iridescent-like glossy patent leather overlay. They will feature a thick premium leather upper build (instead of the traditional mesh), much like the prototype sample pair we seen awhile ago, that will sit atop a traditional Air Jordan 11 translucent outsole.

Other details will also include an embossed Jumpman logo on the back heel instead of embroidered, as well as a Blacked out 23 on the upper heel, along with the classic rope laces, Black/Red carbon fiber and the numbers 72 and 10 on the lace tips. You can also expect another raise in the retail price tag, as they will be set to release at \$220 USD. The shoes will come housed in the traditional slide out packaging.

straight to the point, the first to talk about the waist are led by the "belt" (belt).

many young men have been less willing to choose the belt, why? Is it not by all kinds of LOGO caused by the shadow, so wear is not good that many people prefer not to wear for belt attitude.

is a waist belt are all men are unified acceptance, of course, some men are just to use it to fasten pants... No matter what the reason, it is practical and decorative is indelible. In fact, belted, every minute to help you improve temperament, but also adjust the proportions.

but some things or to say in advance clear down here:

and logo first, or large belt insulation, big H belt the impression in people's minds entrenched. If you really have the strength and love the belt, don't you like this dress, garish clothes are really not suitable for this brand of style you

is not the main fault belt, the key lies in how to take. There are red with gold belt and the nouveau riche, blue with a silver LOGO, tyrant gold color is really eye-catching, easy to go directly to the people with ~~~

like this, even if there was some LOGO in the color appropriate to low-key, after all this sign is enough high! Dress collocation must be simple, man always remember: Jane ji-ya!

The  
must be clear, the belt is auxiliary items, don't let it dominate to seize the limelight, so will the eyes are on the waist position, more easily exposed properties...

like this, this is the belt instead of the upper and lower body make an unnecessary move, the partition of some disorders. The 50-50 figure, did not reflect a "belt is an important tool to improve the" waist line, this way is not to wear!

again, if you have a beer belly and then tie a belt, is a pile of meat teetering on waistband uncomfortable sensory effect.

has a beer belly man dressed like this, the belt for wearing a shirt with suspenders, really suitable for the belly of the man.

if you can be good to avoid the above problems, so the focus here is, how can you choose belt:

is the first to say, no matter what your style, you should be more or less exposed to the belt or belt, in addition to help you ensure the pants off, only a circle of waist up.

like this, with a bold belt:

is followed by the width of the belt, which is based on the integral collocation to go, not all trousers are suitable for wide belt, not all pants can use the narrow belt, the middle value is the optimum width between 2.5~3.5cm.

dress selection belt:

the choice of what style of the belt, should according to their own dress, first laijiangjiang dress. "
